

# Sunbirds Spring Newsletter 2024

Cookery sessions will continue on a Monday so please remember to send your class fund in to support the purchase of ingredients

On Tuesdays, Thursdays and Fridays the children enjoy their sessions in the sensory room and in the soft play room. Both rooms are always very popular sessions for the children to relax and bounce around safely.

On Tuesday mornings, the children will have a splash swim session in the school's hydro pool.

## Friday Mornings

**For the first half of this term the children will be going to bikes at Wythenshawe Bike track.**

**There are so many adapted bikes for the children to choose from, something for everyone.**

On Wednesdays the children go into our woods to experience nature and participate in forest school type activities

**On Friday mornings ( if we do not go to bikes) the children have a PE hall time where they are practising their travelling skills across the large apparatus at different heights and angles. This is developing their confidence, coordination and ability to jump safely.**

## TOPIC

Our Topic this term is 'Houses and Homes'.

The children are learning about all the different houses and homes that there around us and across the world.

Our Class sensory story is The Three Little Pigs and the children enjoy experiencing the props with a house made from straw, sticks and paper bricks.

This topic forms the theme of our artwork for painting and craft activities.

We are singing and signing to the songs that have a House theme and the children are currently enjoying the song 'Our House' by the eighties group Madness.

This also covers a little bit of History when watching the video!
