## Summer Topic: Space

This term we are learning all about Space and what we might see there. We will do this through sensory play, sensory stories and getting messy making art work! We will also be celebrating various days/weeks through this term such as Sports Focus Week, Mental Health Awareness Week, Transitions to high school and Ghyll Head for our Year 6s and End of Year Celebrations.

We will also be providing your children with sensory resources to aid with their learning and so we are asking that families provide £1 per week for our class school fund to help provide this.
